ost important symptom	s and effects, both acute and delayed	
- Ingestion	: Ingestion is not considered a potential route of exposure.	
- Eye contact	: Adverse effects not expected from this product.	
- Skin contact	: Adverse effects not expected from this product.	

# Most important symptoms and effects, both acute and delayed

: In high concentrations may cause asphyxiation. Symptoms may include loss of mobility/ consciousness. Victim may not be aware of asphyxiation. Refer to section 11.

#### Indication of any immediate medical attention and special treatment needed

: None.

#### **SECTION 5.** Fire-fighting measures

Extinguishing media	
- Suitable extinguishing media	: All known extinguishants can be used.
Special hazards arising from the sul	bstance or mixture
Specific hazards	: Exposure to fire may cause containers to rupture/explode.
Hazardous combustion products	: High temperature may liberate toxic gases.
Advice for fire-fighters	
Specific methods	: Coordinate fire measure to the surrounding fire. Cool endangered containers with water spray jet from a protected position. Do not empty contaminated fire water into drains. If possible, stop flow of product.
Special protective equipment for fire fighters	: In confined space use self-contained breathing apparatus.

NITROGE	EN MIX - 100ppm H2S	1541149 - 100PPM H2S
SECTION 6. Accidental release	measures	
Personal proputions, protectiv	e equipment and emergency procedures	
	<ul> <li>Evacuate area.</li> <li>Try to stop release.</li> <li>Ensure adequate air ventilation.</li> <li>Wear self-contained breathing apparatus when enterir be safe.</li> <li>Monitor concentration of released product.</li> </ul>	ng area unless atmosphere is proved to
Environmental precautions		
	: Try to stop release.	
Methods and material for conta	inment and cleaning up	
	: Ventilate area.	
Reference to other sections	: See also sections 8 and 13.	
SECTION 7. Handling and stora	age	
Propositions for cofe handling		
<u>Precautions for safe handling</u> Safe use of the product	<ul> <li>Use only properly specified equipment which is suitab and temperature. Contact your gas supplier if in doubt Only experienced and properly instructed persons sho The product must be handled in accordance with good procedures.</li> <li>Do not smoke while handling product.</li> <li>Ensure the complete gas system was (or is regularily)</li> </ul>	uld handle gases under pressure. I industrial hygiene and safety
Safe handling of the gas recept	acle       : Refer to supplier's container handling instructions. Do not allow backfeed into the container. Protect cylinders from physical damage; do not drag, I When moving cylinders, even for short distances, use designed to transport cylinders. Leave valve protection caps in place until the container or bench or placed in a container stand and is ready for If user experiences any difficulty operating cylinder val supplier. Never attempt to repair or modify container valves or s Damaged valves should be reported immediately to th	a cart (trolley, hand truck, etc.) er has been secured against either a wal or use. Ive discontinue use and contact safety relief devices.

disconnected from equipment.

Keep away from combustible materials.

Keep container below 50°C in a well ventilated place.

Keep container valve outlets clean and free from contaminates particularly oil and water. Replace valve outlet caps or plugs and container caps where supplied as soon as container is

Close container valve after each use and when empty, even if still connected to equipment.

Never use direct flame or electrical heating devices to raise the pressure of a container. Do not remove or deface labels provided by the supplier for the identification of the cylinder

Containers should be stored in the vertical position and property secured to prevent toppling. Stored containers should be periodically checked for general condition and leakage. Container valve guards or caps should be in place. Store containers in location free from fire risk and away from sources of heat and ignition.

Never attempt to transfer gases from one cylinder/container to another.

Observe all regulations and local requirements regarding storage of containers. Containers should not be stored in conditions likely to encourage corrosion.

Specific end use(s)

: None.

contents.

NITROGEN MIX - 100ppm H2S		1541149 - 100PPM H2S
SECTION 8. Exposure control	ols/personal protection	
Control parameters		

Control parameters	
Occupational Exposure Limits	
DNEL: Derived no effect level	: None available.
PNEC: Predicted no effect concentration	: None available.
Exposure controls	
Appropriate engineering controls	<ul> <li>Oxygen detectors should be used when asphixiating gases may be released. Provide adequate general and local exhaust ventilation.</li> <li>Ensure exposure is below occupational exposure limits (where available).</li> <li>Systems under pressure shoud be regularily checked for leakages.</li> <li>Consider work permit system e.g. for maintenance activities.</li> </ul>
Individual protection measures, e.g. personal protective equipment	<ul> <li>A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered.</li> <li>Wear safety glasses with side shields</li> <li>Wear leather safety gloves and safety shoes when handling cylinders.</li> </ul>
Environmental exposure controls	: Refer to local regulations for restriction of emissions to the atmosphere. See section 13 for specific methods for waste gas treatment.

## **SECTION 9.** Physical and chemical properties

### Information on basic physical and chemical properties

#### Appearance

Appearance	
- Physical state at 20°C / 101.3kPa	: Gas.
- Colour	: Colourless.
Odour	: Rotten eggs.
Odour threshold	: Odour threshold is subjective and inadequate to warn for overexposure.
pH value	: Not applicable for gas-mixtures.
Molar mass [g/mol]	: Not applicable for gases and gas-mixtures.
Melting point [°C]	: Not applicable for gas-mixtures.
Boiling point [°C]	: Not applicable for gas-mixtures.
Flash point [°C]	: Not applicable for gas-mixtures.
Evaporation rate (ether=1)	: Not applicable for gas-mixtures.
Flammability range [vol% in air]	: Not applicable for gas-mixtures.
Vapour pressure [20°C]	: Not applicable.
Relative density, gas (air=1)	: Lighter or similar to air.
Solubility in water [mg/l]	: No reliable data available.
Partition coefficient n-octanol/water	: Not applicable for gas-mixtures.
Viscosity at 20°C [mPa.s]	: Not applicable.
Explosive Properties	: Not applicable.

## **Other information**

Other data

: None.

## **SECTION 10.** Stability and reactivity

<u>Reactivity</u>	
	: No reactivity hazard other than the effects described in sub-sections below.
Chemical stability	
	: Stable under normal conditions.
Possibility of hazardous reactions	
	: None.
Conditions to avoid	
	: Avoid moisture in installation systems.
Incompatible materials	
	: With water causes rapid corrosion of some metals.
Hazardous decomposition products	
	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

# **SECTION 11. Toxicological information**

## Information on toxicological effects

Acute toxicity	: No known toxicological effects from this product.
Rat inhalation LC50 [ppm/4h]	: • Hydrogen sulphide : 356
Skin corrosion/irritation	: No known effects from this product.
Serious eye damage/irritation	: No known effects from this product.
Respiratory or skin sensitisation	: No known effects from this product.
Carcinogenicity	: No known effects from this product.
Germ cell mutagenicity	: No known effects from this product.
Toxic for reproduction : Fertility	: No known effects from this product.
Toxic for reproduction : unborn child	: No known effects from this product.
STOT-single exposure	: No known effects from this product.
STOT-repeated exposure	: No known effects from this product.
Aspiration hazard	: Not applicable for gases and gas-mixtures.

### **SECTION 12. Ecological information**

<u>Toxicity</u>	
	: No data available.
Persistence - degradability	
	: No data available.
<b>Bioaccumulative potential</b>	
	: No data available.
<u>Mobility in soil</u>	
	: No data available.
Results of PBT and vPvB assessme	<u>nt</u>
	: No data available.
Other adverse effects	
Effect on ozone layer	: None.
Effect on the global warming	: No known ecological damage caused by this product.
